Stock Market Letters.

Stock Market Letters.

James A. Pollock & Co., stock and grain brokers, 6 West Second South street, make public the following letters on the stock market:

T. A. McIntyre & Co., New York, say:

There is no probability of any important ease in the money market until after the turn of the New Year, sufficient to warrant the expectation of development of renewed active buil speculation in the stock market for any length of time. Rumors were current today that the Secretary of the Treasury had been asked to increase governmental deposits here, to relieve the present situation, but as this would seem to be using the government resources to bolster up a bull speculation, no such action will be taken, unless the situation should become very acute tomorrow:

Hutton, New York, says:

"Money continued to be the dominating influence. Support on a scale was noted by the banking interests in such securities as Pennsylvania. Union Pacific, Southern Pacific and the Steels, but there was no direct attempt to check the decilining tendency or llouidation. Low prices were made before the close, when call money reached 15 per cent. This rate will certainly attract funds from the interior and abroad. We advise caution inf purchasing of stocks and buy the low-priced railway issues on recessions. When conditions look more encouraging in money affairs then is a good time to load up on stocks."

Logan & Bryan, New York, say:

"The market again closed weak and in some cases sharply lower. Liquidation has been the order of the day, with weakness quite pronounced in Atchison. Money continues to be the dominating influence responsible for this liquidation. Another new high market was reached for call money, which at one time loaned at 15 per cent, with last loans at 11½ per cent. We would sell stocks on bulges."

Dick Bros, New York, say:

"The market has been decidedly weak today and heavy and urgent selling all through the list resulted in material declines in practically all leading stocks. The disturbing influence was general calling o

GOOD NEWS FOR SONS OF SWEDEN

Stock Fish All the Way From Their Native Country Is Here.

IS CONSIDERED GREAT DELICACY

Preparations Will Begin Now to Have It Ready for

Christmas.

Stock fish, which is considered one of the greatest delicacies by the sons and daughters of Sweden, has just begun to arrive on the local market; that is, this season's shipments. It is a dried fish, exceedingly hard, and it takes shout six weeks of preparation to make it ready for the Christmas festival. Just what these preparations are the dealers were unable to explain yesterday. All they knew about it was that it takes more work to make it estable than almost any other product they handle, and, judging from reports which the natives of the Northland give out about the fish, it is one of the most delicious offered anywhere.

Grocers are having a deckedly hard time supplying the wants of their patrons so far as full cream choose is concerned. For some reason there has been a decided scarcity of this product of the dairy and some of the whole-salers have not been able to buy a pound for ten days past. Heretofore considerable Eastern choose has been imported, but thus far this year none of it has reached the local deciers.

There is an unusually large variety of fish being offered just now, with the demand, therefore, anything but brisk. Fish mon, however, think the sinckness of the market is only temporary and that within a few days they will be able to dispose of even larger quantities than have been arriving within the past few days.

Chickens still continue to come by the dozens, and some of the wholesale dealers were disposing of them yesterday at 12½ cents a pound. This will not be the price, however, as it cents is asked by nearly all of the dealers were dispose of a big supply that came yesterday morning. ters of Sweden, has just begun to arrive on

SENTIMENT BEARISH IN THE WHEAT PIT

Much of the Selling Believed to Be on Account Leading Bull.

CHICAGO, Nov. 9.-The wheat market was weak from start to finish, the market being subjected to persistent selling pressure from commission houses. Not withstanding that at times a leading bull

withstanding that at times a leading bull gave the market active support, it was generally believed that much of the selling was for the account of this same trader. The greatest pressure was on the December option.

A cablegram from Argentina saying that the weather there was favorable for the wheat crop was a factor that extended considerable influence. An estimate showing receipts of wheat from Argentina for the week to be 2,40,000 bushels tended to increase bearish sentiment.

After opening ½c to ½c lower at 90½c to 90½c, the May opetion slumped off to \$90,804c. The market closed weak with prices near the lowest point of the day, final quotations being to lower at \$90,500. The break in wheat was one of the principal factors contributing to a weak tone

ATE THE NOTE

Over 12 years ago the Pioneer Nurseries trusted a man and took his note. When the note was presented for payment the man seized it and ate it; it called for \$120.00.

We collected it the other day, and the man paid us \$334.23 for the note he had eaten. We had five lawsuits over it, and he went into bankruptcy, but he paid just the same. Our lawyers are the best. We handle all kinds of law suits. Address:
